

November 14, 2018

Dear Valued Customer,

We are writing to inform you that we will be closing the division of our company known as Lower Limb Technology. As of December 1, 2018, we will no longer accept orders for custom fabrication of lower limb orthotics and prosthetics.

Spinal Technology, Inc. has decided to concentrate our resources and focus on increasing our custom spinal orthoses production and perfecting our process to maintain our leading edge in an ever-changing competitive market.

Any lower limb orders that are currently in production will be finished and shipped by the date requested on the order form. We would like to sincerely thank you for your past custom lower limb business. If you have any questions, please contact John Tierney, Director of Sales at 800 253 7868.

Sincerely,

A handwritten signature in black ink that reads "James Tierney". The signature is written in a cursive, flowing style.

James Tierney
President
